Hi August 3rd Online Students!

Just 6 days left until your bootcamp! We're pumped, and so excited to meet everyone! Here are some updates for Monday.

Video answers to algorithm challenges

We created a video answer for each of the 13 mandatory algorithm challenges. If you have not completed all the mandatory algorithm challenges or if you finished them but still want to know how we tackle these challenges, please watch the video answers below.

- Answers to the 13 mandatory algorithm challenges: http://vimeo.com/album/3204697 (password: 'codingdojo')

- Answers to the 5 recommended algorithm challenges: https://vimeo.com/album/3208293 (password: 'codingdojo')

Please watch these videos as many times as you need and still make sure you can individually complete each of these challenges by yourself in two minutes. Make sure you spend as much time as possible working on these algorithms before the bootcamp starts.

First Day Orientation

Please attend your first day orientation on time at **04:30pm PST next Monday on August 3rd, 2015. Kris Ekenes** will be conducting the Orientation. His Skype ID is **kekenes@codingdojo.com.** Feel free to add him via Skype.

 Also, please make sure to go through the following slides before the orientation.

https://docs.google.com/a/village88.com/presentation/d/1MR7s_pNRe-6U_xcG8db5pGDg9P4CFLroKad1cAX6Ojw/edit#slide=id.p20.

📄 **Online/Hybrid Bootcamp Orientation.pptx**

Other Tips
- Record a video for us answering the following questions – (a few minutes is fine, 5 minutes tops). You can use Vimeo, set a password as "codingdojo", and send it to me:
  - Quick intro, name, where you're from, background, interests
  - Why do you want to learn to code, and why did you decide to join the bootcamp?
  - What have you tried before to learn to code? How did that work for you?

- What are you most excited to learn in the bootcamp? Any project ideas you have?
- Make sure you have set up the following: A blog, Twitter, Facebook, Dropbox and Github accounts. Feel free to start posting on them, you'll use these to help record your experience.
- The first half of your tuition is due the second day of class. You can use this link to pay your tuition: https://www.codingdojo.com/tuition/online. Please do "enter custom amount" under "payment type".
- Making sure to spend at least 30 hours a week for the program helps a lot. And having a good internet connection during the bootcamp is required.

Please let us know if you have any questions about the bootcamp or the preparation process. Looking forward to meeting you soon!
